BROPHY
COLLEGE PREPARATORY

FINANCIAL ASSISTANCE PROGRAM | Class of 2030

Since Jesuit schools were first founded in the mid-sixteenth century, students of all religions, ethnicities and socio-economic backgrounds have been served. This diversity is a hallmark of Jesuit education and, in addition to fulfilling the Jesuit mission of providing a quality education to as many young people as possible, it provides a richer classroom experience for all.

Students are first admitted to Brophy based on their qualifications. After a student is accepted, families can then apply for financial assistance if they desire. The committee reviews each application for financial assistance independently. Several factors are taken into consideration such as family income, number of dependents, health expenses, current family commitments for all private school tuition, etc. Circumstances vary from family to family. A family's financial assistance package considers all auxiliary funding sources received toward the annual tuition amount. **Based on those circumstances, financial assistance funding is awarded case-by-case to those who qualify by demonstrating verified, identified need** through these programs:

- **The Grant-In-Aid Program** offers a monetary award applied directly to tuition.

- **The MacBook Air Assistance *may*** be available for incoming or transfer students who qualify for Grant-In-Aid assistance.

The annual tuition deposit for the 2026-2027 school year is $500 (plus one-time new student fee of $80, for a total of $580) and is due no later than March 13. This fee may not be covered by financial assistance, however, families may request a payment plan for the deposit and new student fee by contacting the Business Office.

Steps to Apply for Financial Assistance

Families of applicants of the class of 2030 can apply for financial assistance on the FACTS Management website as soon as their son has been accepted to Brophy in mid-February. The family pays no fee to set up a FACTS tuition account. **It is very important that you write down or memorize your FACTS user name and password**. Brophy is unable to reset your FACTS password, you must contact FACTS directly to get your password reset.

The steps necessary to apply for financial assistance are as follows:

1. Complete a financial assistance application on the FACTS Management website. Go to the website (www.online.factsmgt.com) and click on "Register" if you are a first time user. If you have an account click on "Sign in." Click on the blue "Apply Now *or* Start Application" button. The financial assistance application will open on February 20, 2026.

2. Please have all 2025 income documents, including your 2025 W2s ready when you start the application. If you do not know the answer to a question, the system will not allow you to move ahead to the next question. You can save the application and return to it later.
3. Submit your FACTS application online through the FACTS website. Please submit this application using the Brophy College Preparatory ID. Applicants that qualify for funding by the Brophy Community Foundation (BCF), a separate entity and a certified Arizona tax credit organization, will be reviewed directly by BCF. You do not need to apply separately to BCF.

4. Upload or fax mandatory financial documents (including your 2025 tax return) directly to FACTS no later than April 15, 2026. Uploading documents enables a faster time frame for verification.

5. The priority deadline for incoming families to have financial documents submitted to FACTS is March 24, 2026. The regular deadline is April 15, 2026. Late applications will be accepted; however, a $35 FACTS application fee will be assessed.

6. Check on your application periodically to ensure that all documents have been received and that no further action is required. Once your application has a status of 'VER' or verified, the Brophy Financial Assistance Committee will be able to review your application and make an award decision.

Application Review and Awards

The Financial Assistance review process for the Class of 2030 applicants will begin once the FACTS financial assistance application is complete and the 2025 financial documents have been uploaded and received by FACTS. The Financial Assistance Committee reviews each application independently to be certain that each family's unique circumstances are carefully considered. To avoid delays, a family must complete both the school registration and the financial assistance process as soon as possible.

Please note that the Financial Assistance Committee may consider the financial resources of all persons who have financial responsibility for a student and may consider publicly available information, child support orders and worksheets and one parent's refusal to provide complete financial information when making award decisions.

Financial assistance decisions will be emailed to families who meet the March 24, 2026 submission deadline on or before April 15, 2026. For families that meet the April 15 deadline, every effort will be made to evaluate applications and notify families of award decisions by May 24, 2026. Please note: applying for financial assistance early will not impact the amount of financial assistance you receive. It will only impact the date by which you receive your financial assistance decision.

When you receive the award notification in your email, please log into your FACTS account and access your financial assistance application. You will be instructed how to view and accept or decline your award. The grant amount will appear on your son's FACTS tuition account as soon as possible, but prior to the next scheduled tuition payment due date.

Financial Assistance for Summer School

Financial Assistance for summer school is not available for incoming students in the Class of 2030. It is available for ***returning students only.*** Families of incoming students may request a payment plan for summer school. Please contact the Business Office.

Parent Marital Status

The financial assistance application process is for all parents/guardians who have financial responsibility for the student and their education. Because the purpose of financial assistance is to provide support and assistance to families **with verified financial need**, all adults with financial responsibility for the student are required to provide income and financial information when a family requests financial assistance. The grant of custody or legal decision making to one parent or guardian is not a factor which will be considered by the committee when making financial assistance award decisions. Financial assistance is granted in a student's name and not to individual family members. It is important for the school to understand a family's situation so please make every effort to communicate with the Admissions Office during the student's registration process. Split households must provide the relevant court documents that govern legal decision-making and financial responsibility, including child support orders.

Change in Circumstances

The Financial Assistance Committee utilizes the data entered into the FACTS financial assistance system to determine eligibility for financial assistance. If there is a significant change in family circumstances (e.g., job loss) from the information, families may inform the Financial Assistance Committee by contacting the Business Office.

Tuition Payments and Schedule

Tuition payments are the primary source for covering educational costs. Brophy strives to ensure that the annual tuition covers all educational costs, including required service programs, retreats, yearbooks, graduation, etc. Elective items such as lunch food, summer school, immersion trips, and athletic fees are not covered by tuition.
